

Job Title: Tekla Steelwork Detailer  
Job Type: Permanent, full-time  
Salary: Negotiable, subject to experience  
Location: Hailsham Office, East Sussex

---

An excellent opportunity has arisen for a Tekla Structural Steel draughtsperson to join our well-established, successful and respected steelwork engineering company based in East Sussex

---

### Purpose of the job and key responsibilities:

- Drafting of drawings from information received from our clients.
- Liaising with all concerned parties so that the information required is received promptly and incorporated into the drawing works to ensure compliance with the programme.
- You will liaise with the MD/QS/estimators to ensure the smooth running of each and every project and that any additional costs are brought to the attention of the QS/MD. You will work with the estimator to ensure that the contract remains on budget.
- You will, as necessary, attend meetings with the client organisations and their representatives as required at locations other than your place of work. You will go to site to survey/set out structures and or anything that may have a bearing on the information required to complete drawings on a contract or to ensure the smooth running of a contract.
- From time to time you may be required to carry out estimating duties
- You may be required to carry out other unspecified duties in the execution of your job.

### Qualifications and experience to do the job:

- At least 3 years' experience working with Tekla Structures producing 3D models, detailing connections and producing fabrication packs
- An organised approach to work with sound attention to detail and an ability to meet programme requirements
- A team player, willing to work and communicate well with colleagues, clients and other professionals
- Familiarity with relevant industry standards, codes, and project specifications
- A relevant qualification e.g. degree, HND, HNC would be an advantage
- Have a current full driving licence and the ability to commute to sites when necessary
- Be seeking a permanent PAYE job and live in/within a commutable distance of Hailsham
- Possess a relevant CSCS card (or look to obtain one)
- It would be advantageous to have experience working for, or on behalf of a steel fabricator
- Have a willingness to learn and gain further qualifications to aid the team

### Benefits -

- Pension
- Free parking
- Discretionary staff bonus

How to apply: Please send your current CV, detailing your relevant qualifications and experience to Alan Young by email - [info@hailshamstructures.co.uk](mailto:info@hailshamstructures.co.uk)
